

# Exotic Pets Medicine and surgery

Our specialists are dedicated to providing advanced care for special species such as birds, ferrets, rabbits, small rodents, chinchillas, guinea pigs, lizards, snakes, and even amphibians.

Our trained specialists in **Exotic Pets**, Mireia Maiñez and Teresa Cardona conducted their training in specialized veterinary centers and zoos of USA and Europe.

Realizing that your special species pet is as much a family member as a more traditional pet, our Exotics pets specialists are dedicated to providing the level of care that you expect from **Hospital Veterinario Marina Baixa**
